REPORT NO.

1. Since 28 October 1951, 70% of the personnel at the Volkspolizei station and school in Rostock have been alerted for a period temporarily fixed at 4 weeks - the biggest alert so far given.
2. Only live ammunition is carried, and the maneuvers at Rostock Heath are carried out with 60 rounds of live ammunition per man. All leaves have been cancelled.
3. Shortly before this, large quantities of foodstuffs - mostly canned goods - were stored in the barracks. As there were not enough rooms available for this purpose, several extra rooms had to be evacuated.

25X1X

Comment: This report originated with two well placed persons. They reported that 80% of the police are against the "bolshhevik regime". This is especially evident in the political discussions that take place among the police.
